PERSONAL STATEMENT:

Creative, detail-oriented, and user-centric Frontend Developer with a strong foundation in Computer Engineering. Passionate about building responsive, accessible, and scalable web applications using modern frameworks like React, Next.js and modern UI libraries. Combines technical expertise with a strong eye for design, user experience, and performance optimization. Proven success in delivering high-impact digital products across advertising, e-commerce, edtech, and nonprofit sectors. Excels in cross-functional teams and agile environments, driving continuous innovation through AI integration, performance tuning, and data-driven development that aligns with business goals.

EDUCATIONAL BACKGROUND:

University of Ilorin, Kwara, Nigeria

[2021]

Bachelor of Engineering (B.Eng.), Computer Engineering

Grade: 4.44 /5.0

PROFESSIONAL EXPERIENCE:

HIVENIFY

Frontend Developer

[01/05/2023 – Till Date]

- Built and launched an AI-powered advertising tool that allows users to create, manage, and publish ads across multiple social platforms.
- Developed responsive user interfaces using NextJS, React, Tailwind CSS, and Next.js, with pixel-perfect precision and strong attention to design consistency.
- Collaborated with backend engineers to implement seamless API integrations while ensuring performance and security best practices.

DEEFRENT MEDIA LIMITED, Ireland

Technical Lead

[01/09/2023 – 31/08/2024]

- Led a team of developers, mentoring and training them in technical skills, including WordPress development. Implemented AI principles to enhance project management and improve task automation, driving efficiency in project execution.
- Successfully managed multiple projects, prioritizing tasks to meet deadlines while maintaining high-quality outcomes. Acted as the primary liaison for 15+ clients, delivering technical support and improving response time by 50%.
- Developed and maintained over 15 WordPress websites, focusing on security, compliance, and performance. Proactively addressed malware threats and implemented preventive measures, ensuring website reliability.

DIGIKRAFT

Software Engineering Intern (Frontend)

[09/01/2023 - 04/08/2023]

- Developed and implemented a "Wall of Fame" using React and Tailwind, creating a seamless interface that showcases developer contributions, reflecting strong UI/UX design principles.
- Collaborated with cross-functional teams, ensuring alignment with brand guidelines, and applied modern web development techniques to enhance user experiences through interactive and responsive designs.
- Created dynamic landing pages for Homepage App and Scoolyn, focusing on intuitive user journeys, feature representation, and smart integrations. These projects emphasized my ability to develop intelligent front-end applications that communicate complex services in a user-friendly manner.

CEDARVIEW COMMUNICATIONS LIMITED

Software/VoIP Engineer

[01/12/2021 - 30/04/2023]

- Analyzed user requirements and conducted technical assessments to optimize web application functionality, reducing operating costs by 20% through targeted improvements in system design and performance.
- Supported web development efforts by integrating solutions that enhance software reliability and user interaction, contributing to intelligent systems for VoIP communications.
- Led efforts in debugging and troubleshooting software and hardware issues, improving system reliability and reducing downtime by 20%.
- Conceptualized and designed STATION MONITOR to reduce operational losses by over 40%, underscoring my capacity for system-level innovation and problem-solving.

TIIDELab

Software Engineering Intern (Frontend)

[08/02/2022 - 19/12/2022]

- Developed web applications using HTML5, CSS3, JavaScript, Tailwind, Bootstrap, and React, adhering to best practices and industry standards, reflecting strong software engineering capabilities.
- Led a project team to develop CodeAsk, a Q&A platform for developers, which included implementing features that automate question categorization and feedback loops—showcasing an inclination toward intelligent system design and collaborative problem-solving.
- Regularly engaged in continuous education to stay abreast of new technologies like GraphQL, positioning myself to integrate emerging tech in future software projects.

SELECTED PROJECTS:

- **Hivenify** (<https://hivenify.com/>): AI-powered ad manager with user-friendly UI. Built with React, Tailwind, and Next.js.
- **Qooqs** (<https://qooqs.co.uk/>): Waitlist page for an upcoming e-commerce app. Built landing page with optimized UX and email capture.
- **TrendzSocial** (<https://trendzsocial.net/>): Web platform and contact form for a social media brand. Captures leads, partners, and advertisers.
- **Careerminds** (<https://www.thecareerminds.org/>): Edtech site with multi-role dashboards (Admin, Tutor, Student). Includes course management, auth, and role-based access.
- **RCCG Glasgow** (<https://www.beautifulgateglasgow.org/>): Church website and dashboard system for events, sermons, donations (tithe/offering), and dynamic CMS features.

CERTIFICATIONS

- **Python Fundamentals, Introduction to Scikit Learn, Python Pandas, SciPy in Python, and NumPy Tutorial, Great Learning** [2024]
- **Introduction to Responsible AI, Introduction to Large Language Model, Introduction to Generative AI, Google Cloud** [2024]
- **Artificial Intelligence, Simplilearn** [2024]
- **Introduction to Python** [2023]
- **Software Development Fundamental, TIIDELab** [2022]
- **Git and GitHub Essentials, Amigoscode** [2021]
- **Introduction to Embedded Systems, Atopet Automation** [2019]

VOLUNTEERING AND COMMUNITY ENGAGEMENT

Rotned International Foundation [2022 - 2024]

- Engaged with the Makoko Children Foundation and Methodist Primary School, Abese, to distribute educational materials and deliver hygiene awareness sessions that contributed to students' overall well-being.

TIIDELab Foundation [2022]

- Led and coordinated humanitarian initiatives including a food donation drive for 100 flood-affected households and a mosquito net campaign, combined with malaria sensitization outreach to improve health awareness in underserved communities

NYSC ICT Outreach [2022]

- Spearheaded the ICT engineering team under NYSC CDS group in Ojota, Lagos, where I conducted digital literacy training across three primary schools. Topics included project planning, teamwork, Microsoft tools, and core data concepts, empowering students with essential ICT foundations.

LEADERSHIP EXPERIENCE:

- National Youth Service Corps (NYSC) ICT Engineering Group, Lagos. **Team Lead** [2022]
- Assistant Team leader Community-Based Experience Scheme (COBES) [10/2018 – 11/2018]
 - Led a team of 52 Contemporaries to Ikotun local government, Kwara State where we planned and executed the construction of automatic streetlights, and provided relief such as food, clothes, and medication for members of the community.
- Government College Ibadan. **Student Representative Council (SRC)** [2014]

PROFESSIONAL MEMBERSHIP /AFFILIATIONS

- Graduate Member of the Nigerian Society of Engineers (GMNSE)

TECHNICAL AND DIGITAL SKILLS

- **Languages:** Python, JavaScript, Typescript, C++, SQL, HTML5, CSS3.
- **UI & UX:** Responsive Design, Cross-Browser Compatibility, Web Accessibility (WCAG), Figma to Code, SEO Optimization
- **Framework:** Tailwind, Bootstrap, ReactJS, NextJS, SCSS, AWS.
- **CMS & APIs:** RESTful APIs, GraphQL, CMS Integration (WordPress, Headless), Third-Party API Integration
- **Software Tools/ Lib:** Visual Studio, GitHub, NumPy, Panda, SciPy, Scikit-learn, Matplotlib,
- **Organization Skills:** Analytical and documentation skills, excellent verbal and reasoning
- **Office Tools:** Microsoft Excel, PowerPoint, Word, Outlook, Google Docs/Sheets, Canva.
- **Soft Skills and attributes:** Attention to Detail, Problem Solving, Critical Thinking, Time Management, Communication, Team Collaboration, Analytical Thinking, Technical Writing

LANGUAGES

- English – Fluent
- Yoruba – Native
